### EDUCATION

#### **BA (Hons) Digital Art & Design, 2:1**

University of the West of Scotland  
2017-2019

#### **HND Digital Media**

City of Glasgow College  
2015-2017

### PROFILE

Throughout my career I have worked with a variety of customers, clients and colleagues and have developed excellent communication skills. This has also allowed me to become a headstrong, decisive individual with the ability to adjust in various situations. I always take the utmost pride in all aspects of my job. Working in both hospitality and the creative sector has allowed me to attain a number of skills both personally and creatively.

### WORK

#### **Digital/Graphic Designer**

Freelance | May 2019 - Present

After Graduating, I created my own brand and started working as a freelance Digital/Graphic Designer. This has not only made me understand the nuances of everyday work communication but also taught me the importance of business-client relationships.

Thanks to my work on these various professional projects my creative skill set has considerably improved, as well as, the quality of work I am able to produce within strict deadlines.

I have a keen interest in the ever-changing, dynamic aspects of digital design. The combination of art and technology has taken the creative process to new, exciting levels, and it continues to evolve. I illustrated this during my 4th year at university when I focused my dissertation on animation in relation to edutainment. Since then, I have continued to work on projects that involve; digital illustration, motion graphics, web design, graphic design and 2d animation. I highly enjoy working on varied projects that involve different mediums as it keeps my work looking original and allows for fresh, creative ideas to continuously flow.

- Adobe DreamWeaver
- HTML & CSS Knowledge
- Unity
- Visual Studio
- Character Rigging
- Printwork
- Communication
- Attention to Detail
- Readiness
- Initiative
- Collaboration

### WORK

#### Duty Manager

The Bell Jar | September 2019 - Present

As Duty Manager at the Bell Jar I am responsible for overseeing both the bar and restaurant to make sure everything is running smoothly whilst supervising the staff on shift. Opening and closing the premises along with cashing up at the end of the night are some of the key responsibility tasks that are required of me. Dealing with escalations from staff on a face-to-face basis and making sure customer satisfaction is always met to the highest of standards is a part of the job I take huge pride in.

#### Supervisor

The Solid Rock Cafe | February 2014 - September 2019

Being a valued team member in the Solid Rock Cafe for over five years allowed me to grow as a person and my abilities within the hospitality industry. The proudest part of my job is being the solo bartender in our basement bar every Friday and Saturday night. This entails a lot of trust and fast paced work as when it gets busy and you are on yourself you have to prove yourself and push your limits to get everything done to a standard you are proud of. As well as my expansion of conflict control with experiences of different clientele and situations that arise.

#### Supervisor

The Universal Bar & Kitchen | April 2013 - February 2014

Working in Universal is where I got to enhance my table service skills as well as my first step into putting excellent customer service into practice as I got to spend more time with customers and care for them. I got to build up my cocktail knowledge and tasting palate for different flavours and compliments. There was a high standard to follow which allowed me to be attentive and care for the work I was producing.

### WORK

#### **Bar Associate**

JD Whetherspoon | September 2009 - April 2013

Starting at The Counting House when I was 17 years old meant that I had to really work on my waiting skills as I continued to be a floor associate for one year. I then progressed to the bar where I had to quickly learn to serve efficiently and all products had their own house serve styles. My time as a bartender in the Weatherspoon's chain taught me to serve quickly as well as maintaining customer care as there is often a lot of busy periods but I always wanted to ensure our customers were happy.
